Stress–free operation even when transferring large data!

## D.e Express High speed option

■EDI

【Before】

- Downloading files takes time at overseas offices and often fails.
- Sending a media or private international line costs a lot.
- Dividing data takes time when sending large data.

【After】 High speed option makes possible Stress-free data transfer around the world !

Communication acceleration feature

Browser
Acceleration software (Plug-in)

Acceleration equipment

✓ Accelerated by multiplexed https sessions
✓ Just install a plug-in into PC to use this feature.
   *No need to modify proxy and F/W.

Acceleration performance
（line:100Mbps/file size up to 100MB）

Country	Range delay	packet loss	Acceleration-OFF	Acceleration-ON	0 2 4 6 8 10 160 330
Europe	280ms	0%	10min	1min	
North America	200ms	0%	7min	40sec	
South america	220ms	0%	7min 30sec	40sec	
Asia	120ms	5%	2hr 40min	3min 30sec	
China	150ms	25%	5hr 30min	6min 30sec	
Japan	20ms	0%	40sec	10sec	

*This simulation is an estimate and may differ depending on your environment.

High speed option accelerates download to a minute!

For example: 100Mbps/data:100MB

For Use in Europe 1min

(10min without High speed option)

Reasonable price cloud service! Can be used via Internet connection!

Able to transfer data up to 100GB at once.

How to use High speed option

1. To start using the high speed option, just install software(plug-in) from our Home Page.
   * The software runs on Windows.

2. This is a fare-paying option is for the users who already has basic contract of D.e-Express.
   *Every user needs to apply this option to use an accelerated upload/download function.
   *Large data transfer function (up to 100GB) is covered by the basic contract of D.e-Express.
