D.e-Express Setup manual

Ver. 2022-10-01

TOYOTA SYSTEMS CORPORATION

[INDEX]

1. Introduction

To utilize full functions/performance of D.e-Express, you need to install the Plug-in.

You can use D.e-Express without Plug-in. These are the difference between with or without Plug-in.

	WITH Plug-in	WITHOUT Plug-in
Sending file size	Up to 100GB	Up to 100GB (*1)
The number of sending files	Up to 50,000 files (*2)	Up to 50,000 files (*1)(*2)
Upload a whole folder	Available	Available
Upload by Drag&Drop	Available	Available
Auto recovering from network disconnection while transfering	Available (*3)	Not available
Background transfering	Available	Not available
High-Speed transfering	Available (*4)	Not available

*1 --- The maximum size and number of files you can upload depends on your environment.
      we can upload 4,000MB/3,000 files at once.
      If and more, please install Plug-in or compress before uploading.

*2 --- In case that the number of the attached files exceeds the set upper limit, please apply appropriate measures such as zipping the files.

*3 --- Auto recovering can be performed only the Plug-in is running. It will be terminated when you quit the Plug-in.

*4 --- High-Speed option is required to apply with extra charges.
